About

Laravel developer and tech lead with solid experience taking projects from concept to deploy. I care about clean, maintainable code and tight team collaboration. Laravel is my main game; I'm equally at home in modern JavaScript — Vue.js and Nuxt.js. I value clear communication, honesty, and reliability. Outside of tech I'm outdoors, lifting things, or spending time with family and friends.

Work experience

Soft skills

Leadership & collaboration

Leading teams, fostering collaboration, and shipping projects.

Project management

Planning, organisation, and reliable delivery.

Transparent communication

Open and honest — if I don't know something, I say so and commit to finding the answer.

Lifelong learner

Curious and proactive — unfamiliar territory is a growth opportunity, not a blocker.

Team player

The kind of person you can chat with over a beer, at the gym, or on a hike — good projects start with good relationships.
