About

Laravel developer and tech lead with solid experience taking projects from concept to deploy. I care about clean, maintainable code and tight team collaboration. Laravel is my main game; I'm equally at home in modern JavaScript — Vue.js and Nuxt.js. I value clear communication, honesty, and reliability. Outside of tech I'm outdoors, lifting things, or spending time with family and friends.

Work experience

01/2023 – PRESENT

Laravel Developer

MADELO • OSTRAVA, CZ

Lead backend development and product owner on several shipped projects, leading a team of 5 developers. Design, build, and test robust Laravel APIs — including multiple long-running projects with multi-year development cycles. Work closely with frontend teams and designers on UI/API integration. Direct, regular communication with clients.

04/2022 – 04/2023

WordPress Developer

MADELO • ŽILINA, SK

Custom WordPress themes, ACF, WPML, WooCommerce. Custom plugin development.

03/2019 – PRESENT

Freelance Developer

SELF-EMPLOYED • ŽILINA, SK

Run the full lifecycle of smaller projects — spec, design, frontend, backend, deployment, and ongoing ops on my own VPS. Deliver reliable, user-friendly websites and apps for a varied client base.

Leadership & collaboration

Leading teams, fostering collaboration, and shipping projects.

Project management

Planning, organisation, and reliable delivery.

Transparent communication

Open and honest — if I don't know something, I say so and commit to finding the answer.

Lifelong learner

Curious and proactive — unfamiliar territory is a growth opportunity, not a blocker.

Team player

The kind of person you can chat with over a beer, at the gym, or on a hike — good projects start with good relationships.
